

Dear Sirs,

I listen to K-LOVE Radio in the Phoenix area on 105.5 and 89.1. K-LOVE is an inspiration to me, keeping me informed of Christian activities not only in my local area, but around the world. It challenges me to excel in service to my community, government, and neighborhood. If K-LOVE were to be replaced by a LPFM, I feel it would hurt the communication and special connection needed to service the physical and spiritual needs of our community and the world. Please do not let a Low Power FM station replace K-LOVE.

Thank you for your consideration.
